

Body Piercing Removal for Medical Professionals

When in doubt... Take it out! But how do you take the jewelry out? Are you prepared for a patient with multiple body piercings? This step-by-step pictorial guide will provide a visual overview of many common (and not so common) body piercings, as well as insights as to *how, when, and if* the jewelry should be removed. The easy-to-follow instructions, designed especially with the needs of healthcare professionals in mind, will help prepare you to properly care for your pierced patients.

Author: Scott DeBoer RN, MSN, CEN, CCRN, CFRN, CPEN, EMT-P

is an international seminar leader and legal nurse consultant with over twenty years of nursing experience. He presently works as a flight nurse for the University of Chicago Hospitals. Scott, along with his wife Lisa, are the co-founders of Peds-R-Us Medical Education.

Scott's role as a medical consultant for body piercers around the world, coupled with his ongoing research, allows him to provide unique insights as to medically *what really happens* when body modifications meet medicine.
